

TURKO-GERMAN BREAK UNCONFIRMED

FRENCH CLOSE IN ON VILLE-EN-TARDENNOIS

BIG WAGE RAISE IS GRANTED SHOPMEN BY W. G. M'ADOO EFFECTIVE JAN. 1

DIRECTOR GENERAL OF RAILWAYS ANNOUNCES A NEW SCALE WHICH WILL MEAN MUCH TO TWIN CITIES.

BACK PAY COMING

SOME EMPLOYEES WILL RECEIVE SEVERAL HUNDRED DOLLARS IN BACK TIME ALONE. EIGHT HOUR DAY.

The full text and detail of the recent order of Director General of Railways McAdoo advancing the pay of the 2,000 men employed at the local shops of the L. & N. railroad is eagerly awaited here. It will be issued August 1. There is no doubt, however, that the advance is the largest in the history of the shops, and that it will amount to an annual increase of at least \$500,000 in the local payroll. This figure may be exceeded. The raise is retroactive to January 1, 1918, and when the back pay checks arrive they will be of handsome proportions. Some of the men will receive as much as \$300 in back pay alone.

The advance in wages provides the following minimum increases for the employees of the mechanical departments of all railroads under federal control:

- 1—Machinists, boilermakers, blacksmiths, sheet metal workers, first class electricians—68 cents per hour.
- 2—Carmen and second class electrical workers, 58 cents per hour.
- 3—Helpers—45 cents per hour.
- 4—Foremen paid on hourly basis 5 cents per hour more than respective crafts.
- 5—Foreman paid on monthly basis increase over January 1, 1918—\$40 per month, minimum \$55 and maximum \$250.
- 6—New rates are retroactive to January 1, 1918.
- 7—Beginning August 1, 1918, eight hour day with time and a half for overtime, on Sundays and seven specified holidays.

The men who will receive 68 cents per hour are now receiving 55 cents. Prior to the recent wage advance they received 50 1/2 cents per hour.

The men who will receive 58 cents per hour are now being paid 39 cents per hour.

The helpers who are to receive 45 cents per hour are now receiving 32 1/2 cents per hour.

The wages paid the helpers in future will be nearly as large as those paid machinists prior to the first advance.

In addition to the largely increased pay roll, the shops will be greatly benefitted in that the new wage scale will prove so attractive that many of the former employees who have left for Sheffield and other points will return.

155 NAMES APPEAR ON CASUALTY LISTS

(International News Service.)
Washington, July 30.—One hundred and forty-five casualties in the American forces were announced today by the war department, divided as follows: Seventeen killed in action, eleven died from wounds, fifteen from disease, three from accident and other causes, ninety-five wounded severely, one wounded slightly, three missing in action.

Ten casualties in the marines attached to the American forces were announced today, divided as follows: Five killed in action, one died from wounds, four severely wounded in action. No Alabama names were listed.

GERMANS SUNK \$50,000,000 IN 30 AMERICAN DAILIES

(International News Service.)
New York, July 30.—\$50,000,000 sunk in thirty morning newspapers throughout the United States was Germany's plan to keep this country out of the war, George Sylvester Veireck, editor of Veireck's Nation-

al Weekly, formerly the Fatherland, admitted today under examination by Deputy Attorney General Becker.

A widely known newspaper man at Washington was to furnish the chain of papers with news, the witness said.

DEFERRED CLASSES ARE NOT TO BE DRAWN ON NOW

(International News Service.)
Washington, July 30.—Invasion of the deferred classes is not in immediate danger, members of the committees on military affairs said today, in spite of the fact that Class One is rapidly being exhausted. Class One as at present constituted includes no men of the last registration, it was pointed out, but only men who registered on June 5, 1917. Pro-vost Marshal General Crowder has

given arbitrary orders that at least 50 per cent of the 750,000 men who became 21 during the last year be placed in Class One. It is confidently expected that Class One will be increased by nearly 400,000 when the new registrants are classified. The new Class One men, together with those of the 1917 registration placed in Class One, should give sufficient men to meet the requirements of the next two months, it was said.

POWELL QUILTS SENATE RACE

FALKVILLE MAN RETIRED RATHER THAN JEOPARDIZE AMENDMENT.

In order that the amendist issue might be a clear cut one, J. N. Powell, of Falkville, today withdrew from the race for state senator from the Second Alabama senatorial district, composed of the counties of Lawrence and Morgan. This leaves the field to W. H. Smith, of Town Creek, who favors the ratification of the amendment, and Judge Wm. E. Skeggs, of Albany, who opposes the ratification of the amendment.

Mr. Powell, in withdrawing from the contest, was moved by a belief that a great moral question should be held above his personal ambitions, and voluntarily retired in favor of Mr. Smith, who had announced first, and who also is from Lawrence county, which under the rotation agreement which has existed by courtesy between the two counties, entitles Lawrence to the office this time.

In withdrawing, Mr. Powell issued the following statement:

Falkville, Ala., July 29, 1918.
To the Voters of the Second Senatorial District:

After consulting with my personal and political friends and those having in charge the campaign for the ratification of the national prohibition amendment, I am convinced that to insure the election of a senator from this district who will vote for the ratification of said amendment, it is advisable for one of the candidates favoring the amendment to withdraw and holding that a great moral question should be held above the personal ambition of any man, I hereby withdraw my candidacy for Democratic nomination for senator and request that those of my friends and supporters who favor the ratification of the national prohibition amendment vote for the candidate who pledges himself to vote and work for the ratification of this amendment. I wish to thank all those who have promised me their support and to assure them that my withdrawal is solely in the interest of the success of national prohibition.

Sincerely,
J. N. POWELL.

Huns on Strike; Troops Called Out

(International News Service.)
Amsterdam, July 30.—Machine guns were used by the German military authorities to suppress a strike at Kalb, near Cologne, said a dispatch to the Echo-de-Belge today. The leaders were arrested.

UNDERWOOD SPEAKS AT MASONIC THEATRE

HARDAGE STATES THAT PERMISSION TO SPEAK AT "Y" WAS WITHDRAWN.

Senator Oscar W. Underwood will speak at the Masonic Theatre on tomorrow night, instead of on the lawn of the Y. M. C. A.

A. A. Hardage, who is arranging for the appearance of Senator Underwood in the Twin Cities, in a signed statement today explained that the change of place was due to the action of Secretary Blair in withdrawing permission for the speaking to take place on the association grounds.

The statement follows:

Albany, Ala., July 30, 1918.
Senator Underwood will, on Wednesday night, July 31, speak at the Masonic Theatre, in the city of Albany, Alabama, instead of the Y. M. C. A. lawn. Permission for Senator Underwood to speak on the Y. M. C. A. lawn was secured from all of the directors, including Secretary Blair, but Secretary Blair, without consulting the board of directors, arbitrarily withdrew permission for Senator Underwood to speak on the lawn.

The public is hereby informed that the action in withdrawing the permission for Senator Underwood to speak on this lawn was taken by Blair, upon his own responsibility, and the public should not attach any blame to the board of directors for this action. The action of Secretary Blair, in withdrawing permission for Senator Underwood, who is one of the world's foremost statesmen, to speak on the lawn, in front of the Y. M. C. A. building, when the master politician Brooks Lawrence, was allowed to hold a political meeting in the building itself, seems very inconsistent.

The people of Morgan and adjoining counties, should not fail to hear Senator Underwood, who in his address will, among other things, discuss the war and the problems of government coming out of the war. Senator Underwood has been one of the President's main backers in all war legislation, and no man in the United States senate is any better qualified to speak on war problems than is Senator Underwood, for he has made these problems a special study, and you will miss a rare and intellectual treat if you fail to hear him.

The ladies, and especially those having relatives in the war, are urged to be present.

A. A. HARDAGE.
Blair's Statement.

Secretary Blair, in defending his action, made the statement that the rules of the Y. M. C. A. do not permit political speeches of any kind to be delivered on the premises, and that he was convinced that Senator Underwood's address would be of a political nature.

SOLDIERS MARCH TO RIVER AND LAKE IN ITS WATERS; OFFICERS WERE ON GUARD

The patriotism of the Tennessee river is not open to question. It again did its "bit" yesterday afternoon when it afforded bathing facilities, free of charge, to a detachment of U. S. engineers that passed through Decatur.

The soldier boys, some five hundred or more strong, immediately after their train pulled into the Decatur station, climbed out of the hot,

stuff cars, and with each man carrying a small bundle under his arm, proceeded to the water's edge. While the officers stood guard to keep ladies and spectators at a safe distance, the men obeyed the signal to "shuck" and in a jiffy were disrobed and had plunged into the stream. Cleansed and invigorated, they shortly afterwards returned to their uniforms and marched back to the train.

GERMANS ARE MAKING DESPERATE EFFORT TO STEM ALLIED ADVANCE

PICKED TROOPS SENT IN TO STOP THE FRANCO-AMERICAN DRIVE

HUNS ARE NOW USING 71 DIVISIONS

Foch's Men Progress to Within Mile of the Ardre River

(International News Service.)

Washington, July 30.—Official explanation of the report sent via London from Copenhagen by the correspondent of the Exchange Telegraph Company, asserting that "the relations between Turkey and Germany have been severed" had not reached Washington today.

Officials admitted their intense interest in this report. They could not explain it, however. While accepting that there has been constantly increasing tension between Turkey and Germany growing out of the Roumanian situation and the increasing war weariness in Turkey, where the young party is now in disfavor, officials did not believe it sufficient to warrant any break at this time. However, they were endeavoring to get something official on the subject.

Some officials were inclined to look with suspicion upon the purported break. They insisted that German influences in the court of the new sultan were strong enough to retain control. It also was pointed out that on many occasions when Germany desired to distract attention from the military situation, she had fathered diplomatic discussions through neutral sources. In thus characterizing this possibility, no one here lost sight of the fact that there has been friction. Only recently the Germans demanded the cruiser Hamidieh as compensation for the destroyed cruiser Breslau. Germany refused Turkish demands for much of the territory taken from Roumania and for the title to the Adrianople-Derbace railway. These differences were considered sufficient to cause the United States to refrain from declaring war on Turkey as the result of the sacking of the American hospital in Tabriz by Turkish regulars, a matter which is still the subject of diplomatic negotiations.

(International News Service.)

Employing their best Prussian and Bavarian veterans, the Germans are making desperate efforts to stem the Franco-American advance on the new line to which the Teutons fell back on Saturday and Sunday.

Vicious fighting is raging over the 25-mile front from the sector of Buzancy, south of Soissons, to the sector of Ville-En-Tardennois, on the eastern wing of the salient, where the Germans have the advantage of high ground.

It is estimated that the Germans have 71 divisions, or 852,000 men, massed south of the Aisne for the defense of the Aisne-Vesle line.

The German right wing now stands upon the plateau south of Soissons in the Cryse river sector, from which the front curves southward to the hills north of the Ourcq. Thence it bends to the northeast to the hills flanking the Ardre.

The French have progressed towards Aubilly, which is scarcely a mile south of the Ardre river, and also on the center in the vicinity of Villers-Agron, as well as near Grand-Rozoy on the left wing.

Northeast of Outchy-le-Chateau and east of Fere-En-Tardennois, where the Germans held strongly fortified positions, their counter assaults won them temporary success.

London, July 30.—British raiders entered German positions in the sectors of Ayette valley and Merris during the night, capturing some prisoners, the war office announced today. German artillery bombarded British positions northeast of Albert with gas shells.

Paris, July 30.—There was nothing of importance to report during the night north of the Marne, the French war office announced today.

(International News Service.)

Paris, July 30.—Field Marshal Von Mackensen has arrived at German great headquarters and it is reported that he will replace Gen. Ludendorff, said a dispatch from Berne today. Recently Gen. Ludendorff has been signing the official statements of the German war office which supported reports that he had succeeded Von Hindenburg as chief of the German general staff.

(International News Service.)

London, July 30.—Violent fighting is in progress along the whole Aisne-Marne front, especially between Ville-En-Tardennois and Buzancy. The French have advanced further in the sector of the Ardre towards Aubilly, and also in the neighborhood of Villers-Agron and Grand-Rozoy, where they are progressing towards the plateau between the Ourcq and Vesle rivers. A heavy struggle is raging around Buzancy and Tlesiere wood, where 400 prisoners were taken from three different German divisions.

MORE HOUSES NEEDED; A GREAT OPPORTUNITY.

There was a time when enterprising real estate men of the Twin Cities were wont to advertise houses for rent. They occasionally went to the extreme of advertising one for sale. Conditions, however, had undergone a marked change, and nowadays the tenant seeks the house, not the house the tenant.

The change has been wrought in part by the location of the government nitrate plant at Muscle Shoals. Aside from the congested conditions existing in the Tri-Cities, a normal effect of the expenditure of such large sums in such close proximity would insure a material increase in the population of Albany and Decatur. The congestion and unsatisfactory living conditions at the nitrate towns has added to the demand for houses here, for many men employed at the various government plants are unwilling for their families to remain in an unsatisfactory environment.

Under the circumstances, the question is: What will Albany-Decatur do about it? Are they going to build additional houses, and thus invite new people to make their homes here, or are they to remain content and let a great opportunity glide by. Evidently they are going to get busy, for both the Albany Board of Commerce and the Decatur Boosters Club have named committees to help solve the problem. These committees should work fast, for the school season is drawing near, and with its approach the demand for housing facilities will increase.

Individually, there is a great opportunity for some enterprising real estate man to get into action on his own hook. The Land Company also has a chance to do some real development work.

To emphasize the genuineness of the demand for homes here, only yesterday a Florence couple came into the Daily office asking aid in locating a suitable residence. They were just tired of the pell mell state of affairs at Florence. They were substantial people, most desirable additions to the community. This was not the first time, recently, that the Daily has been called on for aid in a similar cause. These facts are recited merely to show what's in the air. When a newspaper office is visited by house hunters, it is high time to consider the possible line-up at the office of some hustling real estate man.

The only way to get more houses is to build them.

TEMPORARY BUILDINGS TO BE ERECTED

(Florence Times.)

In order to accommodate the engineers now engaged in the work of constructing the big dam across the river at Florence, a large office building will be erected at once on the vacant lot lying east of the postoffice, and fronting the Presbyterian church. The building will be temporary in character, twenty-one by fifty feet, and will be occupied by the engineers, many of whom are now crowded in the federal building. The material for this building has been brought here from Mobile, in blocks, and the process of erection will be rapid.

In addition to this building there will also be erected on the same lot a garage, twenty-one by ninety-eight feet in dimensions. The material for this building has also come from Mobile, and it will be made into a building rapidly. The work is expected to commence this week, and completed in a short time.

It is understood that the office building will be used by the large corps of engineers, while the executive officers will remain in the post-office building.

In addition to these buildings several car loads of houses, knocked down, have arrived here and will be erected at the dam site.

WORK ON THE DAM

(Florence Times.)

The federal building at Florence is filled to its capacity with the officers and their assistants who are to build the great dam over the river at Florence, and more working space is to

be given to them at once by the erection on the same block of a temporary office building.

Ninety men are now at work on the river, building cofferdams, while an additional force will soon be put to work erecting houses on the land adjacent. A large amount of material of various kinds is being received, and the process of getting ready for more extensive work is fully under way. To facilitate this work a double track railway will be built from the Philadelphia furnace to the dam site, and later on much side-tracking will be made.

Rumely, Who Is Indicted in N. Y. Is an Indianian

WAS RETIRED FROM ACTIVE ASSOCIATION OF HOOSIER CONCERN AFTER ITS TOO RAPID EXPANSION.

(International News Service)
La Porte, Ind., July 30.—Edward Aloysius Rumely, who is under indictment at New York for the alleged violation of the enemy trading act, is a native of La Porte. He is the son of Mr. and Mrs. Joseph J. Rumely, and is thirty-six years old. He was educated at the La Porte grade school and Notre Dame University. He also attended the University of Heidelberg and the University of Freiburg, from which he received the degree of doctor of medicine in 1896. When he returned to La Porte, about 1910, he became connected with the M. Rumely Company and was prominent here in the industrial expansion of that and several other business ventures.

It was through the influence of E. A. Rumely that New York financiers were interested in the M. Rumely Company and that through them this company was too rapidly expanded, according to charges by creditors, which expansion resulted in a reorganization of the corporation, at which time E. A. Rumely was retired from active association with the Rumely Company.

At the time of the rapid expansion of the M. Rumely Company La Porte experienced a marked financial and industrial boom. Another venture promoted by Dr. Rumely was the founding of the Interlaken School, of which he is still the head.

After leaving La Porte he went to New York, where he entered the newspaper field and purchased the New York Evening Mail. Dr. Rumely has written several books on education and has been a member of the National Association for the Promotion of Industrial Training and also a member of the American Association of Agricultural Engineers.

During the 1912 campaign he was one of the leaders of the Progressive party in Indiana and is said to have been closely affiliated with Theodore Roosevelt at that time.

WIDOW PREFERRED TO MEET DEATH AT HOME

"For many years I suffered from stomach trouble. All the doctors I tried helped me but little. All said I would have to go to hospital and be operated on for gall stones or I would not live much longer. I told them I preferred to meet death at home. One day I picked up an advertisement of May's Wonderful Remedy and since taking a course of it more than a year ago have not had a single pain in my stomach, have a good appetite and can eat anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

TO NATIONALIZE COMMUNITY MUSIC AS WAR MEASURE

For the first time in the history of the United States, official recognition of music as an art has been given. At once a measure will doubtless be taken to complete an organization that will carry the war-time value of music into every city, town and home.

The Liberty Sings should be organized in every neighborhood or family, to sing the trench songs, to help win the war. Sing them not as a "sob artist" but put the pep in them that thousands of our boys are doing. Had the government not found the value of music would it have set the seal of approval on it, thus giving the populace the opportunity to find emotional expression in the popular songs.

For several years Mr. Albert C. Hoxie has carefully nursed community singing in Philadelphia, and being an accomplished musician has accomplished much in raising the standard of music. John C. Friend has advocated the Liberty Chorus as first aid to community work.

Nearly every movie picture in Philadelphia has its "Liberty Sing" every night. Mr. Hoxie has but to appear on the stage or stand on a chair. The people will understand and soon a song floats on the air. "Every experienced leader," as Mr. Hoxie says, "knows this is the only way to approach the problem of planting music in the hearts of the American people and making it of practical value to them."

MR. AND MRS. AL W. REAMS COMPLIMENT BROTHER, THOMAS BROOKS

Monday evening Mr. and Mrs. Al Reams opened their home in compliment to Midshipman Thomas Brooks, who is on a 10-day furlough from the U. S. S. Maumee.

Tables for room were arranged in the living room hall; and on the porch where Jap lanterns shed a soft glow, vases of vari-colored flowers made a pretty decoration. Throughout the evening punch was served.

Those playing were: Gladys Kerr, Dorothy and Virginia Mayer, Christine Davidson, Thelma Morrow, Glen Garrison, Imogene Winton, Louise Hartung, Colene Day, Gladys Bernardi, Mabel Eubanks, Mary Talley, Ruby Winton, Mary Harvey, Dunlap Alexander, William Foster, Walter Thomas, Robert Sittason, John W. Lovin, Ernest Morrow, Arthur Nebig, Otto Owen, Harris Williams, Richard Nelson, Mr. and Mrs. Price Hamilton, Mr. and Mrs. Robert Ford.

INEXPERIENCED YANKEES WHIP GERMAN'S SOUNDLY

(International News Service.) BUCYRUS, O., July 30.—"Few, if any, of the men who gave such a good account of themselves near Chateau-Thierry had ever been under fire before, but the Germans received no sounder thrashing anywhere along that fiercely contested front than that given them by our men."

This sentence is contained in a letter from Colonel Edward Vollrath, who is with the Eighty-second Infantry Brigade, American Expeditionary Forces.

A LEPER'S ISLAND FOR THE KAISER PROPOSED

(International News Service.) Los Angeles, Cal., July 30.—"A leper's island for Kaiser Wilhelm as an antidote to the moral leprosy with which the Beast of Berlin has attempted to infect the world," was recommended here by Dr. Charles R. Brown, dean of Yale University, in an address at the University of Southern California.

"In 1815," said Dr. Brown, "Great Britain and her allies put the Island of St. Helena on the map by banishing to that island the disturber of Europe. If in the year of our Lord, 1918, the United States should, in similar fashion, put some other island on the map by banishing to that island the present disturber of the peace of Europe, nine-tenths of all the human race would rise up and thank God!"

BILLIE BURKE IN "ARMS AND THE GIRL," MASONIC TODAY

At the Hotel Tete d'Or in Beaupre, Belgium, Olga Karnovitch, a Russian spy, learns that the town will soon be taken by the Germans, but as she is to dine with Wilfred Ferrers, an American acquaintance, she decides to stay over. Before dinner Ruth Sherwood, an American, comes to the hotel, saying that she has been separated from her party and missed the train. Olga learns that in a nearby town Boris Ipanoff, the Russian consul, is sentenced to be shot. She borrows Ferrer's automobile and is whisked away to his aid.

When the two Americans are eating a German officer appears and interrupts their dinner with lengthy questionings. Ruth discovers that the Russian girl spy exchanged their passports and when she acquaints Ferrer of this fact he makes her destroy the Russian passport, for there is great danger of her being shot as a spy or even for having aided a spy if it is discovered.

Ferrer promises to get her another passport from the American min-

ister at Brussels, and they burst into gales of laughter over his attempts to write out a description of her for the minister. In the midst of this fun the German officer reappears and orders Ferrer's arrest for having aided the Russian to escape by the loan of his car. Ruth comes to his assistance by stating that he is the fiance for whom she has been waiting. The officer, skeptical, orders them to be married, and Ruth consents in order to save one who has been kind to her.

The ceremony is performed, and the embarrassed young people are sent to the old garden of the inn, known as "the marriage garden." Ferrer thanks Ruth for saving his life—for he would have been shot at sunrise—and promises to obtain a divorce or nullification of the marriage as soon as possible, adding that he will find Jack, the absent fiance, and bring him to her immediately. A telegram from Jack arrives, and they are obliged to state that he is their chauffeur. They fear that when Jack comes he will "queer" their story, not being aware of the state of affairs.

That night Ferrer makes good his escape from the inn where they are virtually held as prisoners, disguised in the uniform of a German soldier. Ruth is relieved for his sake, for she also is rapidly falling in love with her strange "husband." Jack, who has by this time arrived, is cross-questioned by the Germans, but before he has had time to answer shots are heard outside and a terrific bombing sets in. Jack displays cowardice and commences to reveal his real character—weak and a cad.

Ferrer, disguised as the German soldier, has been hurt—shot by a sentry—and brought back to the inn, where he is brought again to Ruth's room to be taken care of, Jack, learning that he is there, betrays his real nature and voices his base suspicions of Ruth. The girl realizes that Jack is impossible and that it is Ferrer whom she really cares for. She sends for him again and they learn that their love for each other, formed under the stress of the terrible ordeals they had undergone together, is mutual.

NEW DISCOVERY TALK OF NATION**ENORMOUS POSSIBILITIES ARE SEEN BY SCIENTISTS IN IROGEN TREATMENT.**

The medical fad of today is Irogen, the newly discovered strength builder. In fact, aside from the great war, the discovery of Irogen and the possibilities offered by it in the treatment of disease, is the most talked of subject in the nation at the present time.

Physicians and druggists now explain that there are two ways to treat disease—one is to kill the germs with medicines; the other is to build up the strength and vigor of the system through the blood, thus making it immune from germs, or in other words, giving the system the strength to throw off the germs.

The old method of treatment by germ destroying medicines, they say, has not been entirely satisfactory, except with a few acute cases, such as diphtheria; where the mortality has been reduced to a very small fraction. But in chronic disease, where the blood is weak and poorly nourished, it is claimed medicines have been quite unsatisfactory, except to temporarily relieve the symptoms.

It is now agreed that this is due to the fact that the system (blood) is actually lacking in the element that it is found Irogen will supply. Therefore, authorities point out, in chronic cases Irogen is absolutely necessary and the results from its use have been most satisfactory. Weak, run-down, nervous people, they say, rapidly regain their normal strength and power to resist disease after using Irogen, and become strong, well nourished and physically fit.

Note: Irogen, the product mentioned above is now on sale in Decatur by the Decatur Drug Co., in Albany by the Preuit-Dillehay Drug Co., and in Falkville by the Owl Drug Co.

Food For the Liver

Have you ever thought of medicine as food—the same as meat or potatoes? Yet that is what it really is. "Sodium Bi-carbonate" sounds rather threatening as a medicine, yet all housewives use baking soda in their cooking every day.

An eminent Specialist has said that every organ of the body has the power to take that nourishment which makes it grow and remain healthy. Thus there are certain herbs, fruits and plants which the liver shows a fondness for. They stimulate the liver just as food strengthens and stimulates the whole body. These we call liver medicines or liver tonics.

By investigation it has been found that several of these vegetable products, combined with Pepsin, form an admirable liver food. They have accordingly been prepared in pleasing, tasty form, and are sold under the name "333 Liver Tonic." They are powerful enough, but gentle in action, and are never habit forming. Many people have been delighted to learn that 333 Liver Tonic provides a safe and pleasant substitute for calomel, salts, castor oil and other drastic and disagreeable purgatives. Children take it with pleasure.

Dillehay Brothers and other good druggists sell 333 Liver Tonic in big fifty-cent packages. You will find it just what you need for constipation or sluggish liver. Try it on their guarantee of satisfaction or money refunded. Do not accept a substitute. All good drug stores are glad to sell and recommend 333 Liver Tonic.

TURK-GERMAN BREAK NOT CONFIRMED

(Continued from page one.)

the Ourcq with the result that the fighting has become very severe.

(International News Service.)

Amsterdam, July 30.—Hakji Pasha, Turkish ambassador to Germany, is dead, according to a report received here today. Hakji Pasha was a representative of Turkey at the Brest-Litovsk peace conference.

(International News Service.)

Amsterdam, July 30.—All German war materials were destroyed before the beginning of the "well prepared German retreat near Fere-en-Tardennois and Ville-en-Tardennois," according to a dispatch from Berlin today, quoting a semi-official statement.

(International News Service.)

London, July 30.—(4 p. m.)—Romigny, only one and a half miles from the German supply center at Ville-en-Tardennois, has been captured by the French, according to news from the Aisne-Marne battle field this afternoon. There was hard fighting today with heavy local attacks and counter attacks. The Germans are making stubborn resistance southeast of Cierges; on the Jaulgonne-Fismes road. The changes in the battle lines have been slight.

(International News Service.)

With the American Army at the Aisne, July 29.—(6 p. m.)—One hundred dead Germans were found today in a small open space in the Tiz forest, showing the efficacy of our artillery fire, preceding the American attack through the woods. The Germans had evidently been asleep when several shrapnel shells burst over them.

It is easy to understand why the Americans were unable to make rapid progress in the attacks there. Riz forest is thick with underbrush and natural machine gun emplacements. It was extremely difficult to make progress and our attacks had to be either up a steep slope or along a ravine swept by both sides.

The town of Jaulgonne on the Marne which was occupied by the Americans a week ago was badly battered by our shell fire. Throughout the whole region of Jaulgonne, Riz forest and Charnel the Boches abandoned thousands of shells, including many gas projectiles and much machine gun ammunition.

During the morning German fockers flying low repeatedly machine gunned a string of our ambulances that were bringing wounded from the Ourcq fighting zone. Finally they were driven off by allied planes.

AMUSEMENT WAR TAX HAS BEEN INCREASED 100 PER CENT

(International News Service.)

Washington, July 30.—The war tax on amusement admissions and on club dues will be doubled in the new revenue bill. This was finally decided this afternoon by the House ways and means committee. The present tax on amusement admissions is 10

per cent and the rate on club dues 10 per cent when the dues are more than \$12 a year.

The committee also decided to levy a heavier tax on tobacco. The suggestion of the treasury department that the tax be doubled was rejected.

250 AMERICAN SHIPS ARE ABROAD

ROOSEVELT HEARS PRAISE OF U. S. NAVY SONG.

London, July 30.—"There is no branch of Anglo-American activity in which co-operation and comradeship are more marked and more complete than in the navy," said Sir Eric Geddes, first lord of the British admiralty, speaking at the American Luncheon Club.

"There are more than 250 American warships now based on this side," Sir Eric said, "and Mr. Roosevelt (American Secretary of the Navy), has assured us this number will increase faster in the future than in the past."

"We are glad to welcome all these additions to the allied naval strength," Sir Eric added, "because every additional ship means a more strenuous war against submarines."

"Large numbers of ships are being required nowadays for the work of escorting incoming American transports. If a ship is on escort duty it

cannot be hunting and fighting submarines. So the additional American forces will mean the release of a similar number of British for intensive offensive work against U-boats."

In addition to Sir Eric Geddes and Franklin D. Roosevelt, the American assistant of the navy, the guests included the members of the naval committee of the American House of Representatives. Mr. Roosevelt said:

"I came over here with the object of learning. That is why I came across the Atlantic in a destroyer. I shall spend most of my few weeks on this side in actually seeing things being done."

"Sir Eric Geddes and myself have already visited Queenstown and we have found things working there just as I had dreamed they ought to be working—a keen, united energy of British and American forces, aiming at a common end. It has been a great pleasure to meet Sir Eric, to travel with him on an American destroyer and to find him a 'he man' talking in our own language."

"The United States owes much to the untiring work of the British navy, for it is a fact that about 60 per cent of the troop ships carrying Americans to Europe are British ships and have been escorted by British men-o-war."

"The United States has, I believe, at last struck its stride in naval construction, and we shall deliver ships very rapidly henceforth."

WALK ERECT AT EIGHTY

Because a man or woman is old does not mean that they must walk along bent over and supported with a cane. A man can be as vigorous and healthy at eighty as at twenty if he aids the organs of the body in performing their functions.

All diseases whether of a malignant or weak character tend to tear away our vitality. You must counteract disease in its incipient stage if you would live a happy and useful long life.

GOLD MEDAL Haarlem Oil Capsules, a 200-year-old preparation that is used all over the world, contains soothing oils combined with strengthening and system-cleaning herbs. These capsules are a prescription and have been and are still being used by physicians in daily practice. They have proven their merit in relieving backache, kidney and bladder complaints and all ailments arising from an excess of uric acid in the system.

GOLD MEDAL Haarlem Oil Capsules are sold at all reliable druggists. They are guaranteed to do everything as claimed or money refunded. Don't be misled by false imitations. Look for GOLD MEDAL on every box. (Adv.)

Bohemians Riot; Hunger Gnaws

(International News Service.)

Berne, July 30.—Serious hunger rioting has again broken out at Kilen and Tardubitz, in Bohemia, said a dispatch from Vienna today, quoting the socialist newspaper Arbeiter Zeitung. Soldiers fired on the mob, dispersing it.

LAST NOTICE

To those owing the estate of the late Samuel Spielberger (deceased), notice is given that unless accounts are paid or satisfactory arrangements made, suit will be filed and every effort made to collect same.

The New Calomel Is Harmless & Delightful

All Sickening and Dangerous Qualities Removed—Medicinal Virtues Vastly Improved. New Variety Called "Calotabs."

Science has given us smokeless powder, colorless iodine and tasteless quinine—now comes nausealess calomel, a new variety known as Calotabs, that is wholly delightful in effect, yet more effective than the old style calomel as a system purifier and liver-cleanser.

Your doctor prefers calomel above all other medicines, as it is the best and only sure remedy for biliousness, indigestion and constipation. Now that calomel is delightful to take, everybody is asking for the new variety, Calotabs. One tablet at bedtime, a swallow of water—that's all. No nausea, no griping, no danger. Next morning you wake up feeling fine, your liver cleansed, your system purified. Eat what you please—no restriction of habit or diet.

Calotabs are sold only in original, sealed packages, price thirty-five cents. Your druggist recommends and guarantees Calotabs. (Adv.)

Profits and Prices

Profits may be considered from two angles:

- 1st—Their effect on prices;
- 2nd—As a return to investors.

When profits are small as compared with sales, they have little effect on prices.

Swift & Company's profits are only a fraction of a cent per pound on all products sold, and if eliminated entirely would have practically no effect on prices.

Swift & Company paid 10 per cent dividends to over 20,000 stockholders out of its 1917 profits. It also had to build extensions and improvements out of profits; to finance large stocks of goods made necessary by unprecedented requirements of the United States and Allied Governments; and to provide protection against the day of declining markets.

Is it fair to call this profiteering?
